## An Edible Science & Faith Odyssey

G. Stevenson, <sup>1</sup> A. Wong, <sup>1</sup> A. E. Sikkema, <sup>2,3</sup> M. McEwan, <sup>2</sup> C.M. Friesen <sup>3</sup>  
<sup>1</sup> Theo's Feast, <sup>2</sup> Canadian Scientific & Christian Affiliation, <sup>3</sup> Trinity Western University  
Published 19 April 2018; tested 5 May 2018; served 14 May 2018.

### Abstract:

The objective of this Feast is to demonstrate that, despite our current culture's perspective of an alleged conflict and incompatibility between science and faith, there is indeed a harmonious relationship between these two pursuits of the truth. During this multi-course meal we will take diners on a culinary odyssey — an epic journey highlighting seven periods of scientific inquiry and discovery and the significant role that faith has played in the hearts and minds of many of the world's most brilliant scientists, as we eat dishes that are inspired by their discoveries.

### About Theo's Feast:

Theo's Feast is a unique dining experience that is as equally appetizing to the mind and soul as it is to the most distinguished palate. Inspired by many of the world's most creative avant-garde Chefs, thought-provoking theologians and culture shaping philosophers. Theo's Feast is a true gastronomic adventure that cleverly pairs one of a kind dishes to universal metaphors revealing timeless truths that have been a part of humanity's story from the very beginning. To reserve tickets and for more information please go to [theosfeast.com/events](http://theosfeast.com/events).

### About the CSCA:

The Canadian Scientific and Christian Affiliation (CSCA) is a fellowship of scientists and those interested in science, who want to understand how science should best interact with the life-giving Christian tradition. Our interdisciplinary discussions range through many different fields, such as cosmology, ethics, the environment, origin studies, engineering, the history of science, and biblical interpretation. CSCA members come to these challenges as researchers in academia and industry, as professors, theologians, philosophers, administrators, and as students. For more information go to [csc.ca](http://csc.ca).

### An edible odyssey uncovering the harmonious relationship between science and faith.

You will be taken on an exceptional food-tasting journey through the story of science. Every element of this multi-course meal has been meticulously designed to enliven your senses while provoking opportunity for a fun and enlightening conversation with your friends. Please join us for a truly memorable spiritually inspired evening.

Sincerely,

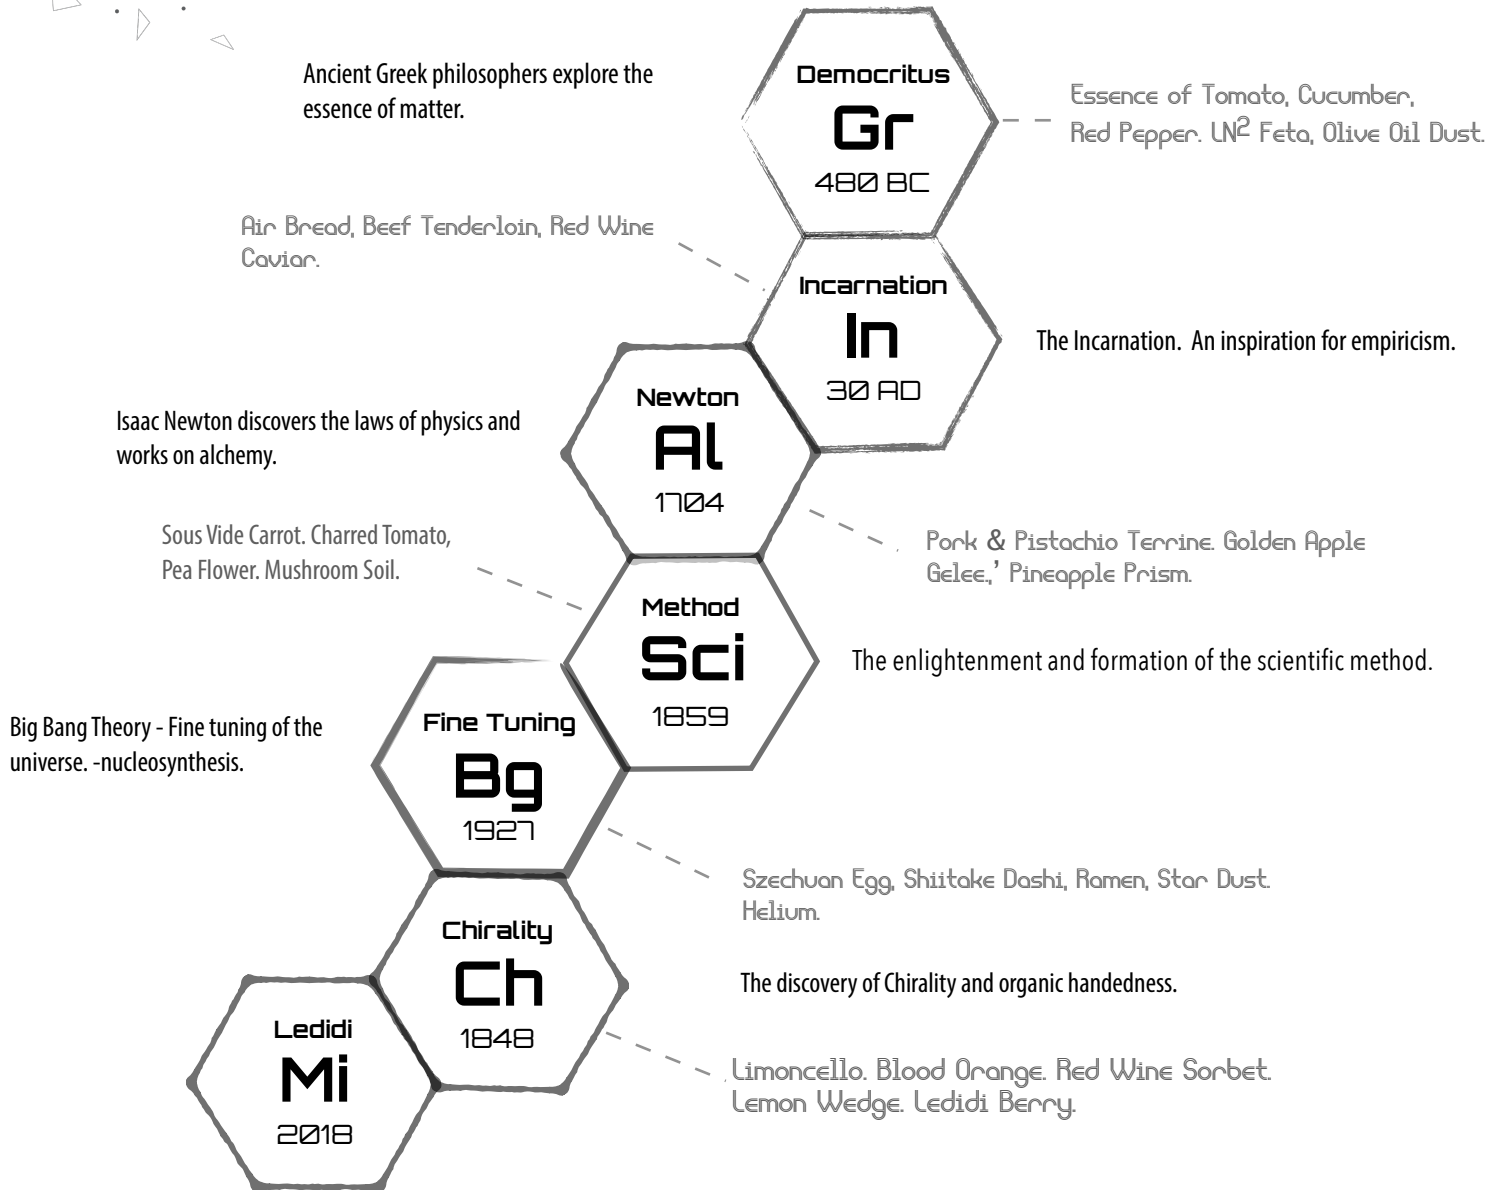

Chef Gary Stevenson, and Abraham Wong, Theo's Feast  
Arnold E. Sikkema, Professor of Physics, Trinity Western University  
Mark McEwan, Project Development Officer, CSCA  
Chadron M. Friesen, Professor of Chemistry, Trinity Western University
